

Roll-Out Tray Accessory

Tools

To assemble this product you will require:

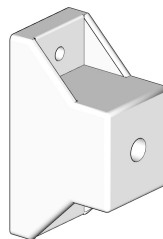

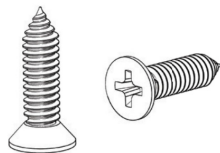

Equipment

To assemble this product you should have:

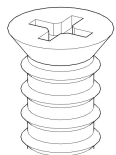

**#8 x 5/8" Stainless Steel
Phillips Flat
Head Screw**

Qty: 12

**32x25mm Drawer
Slide Spacer**

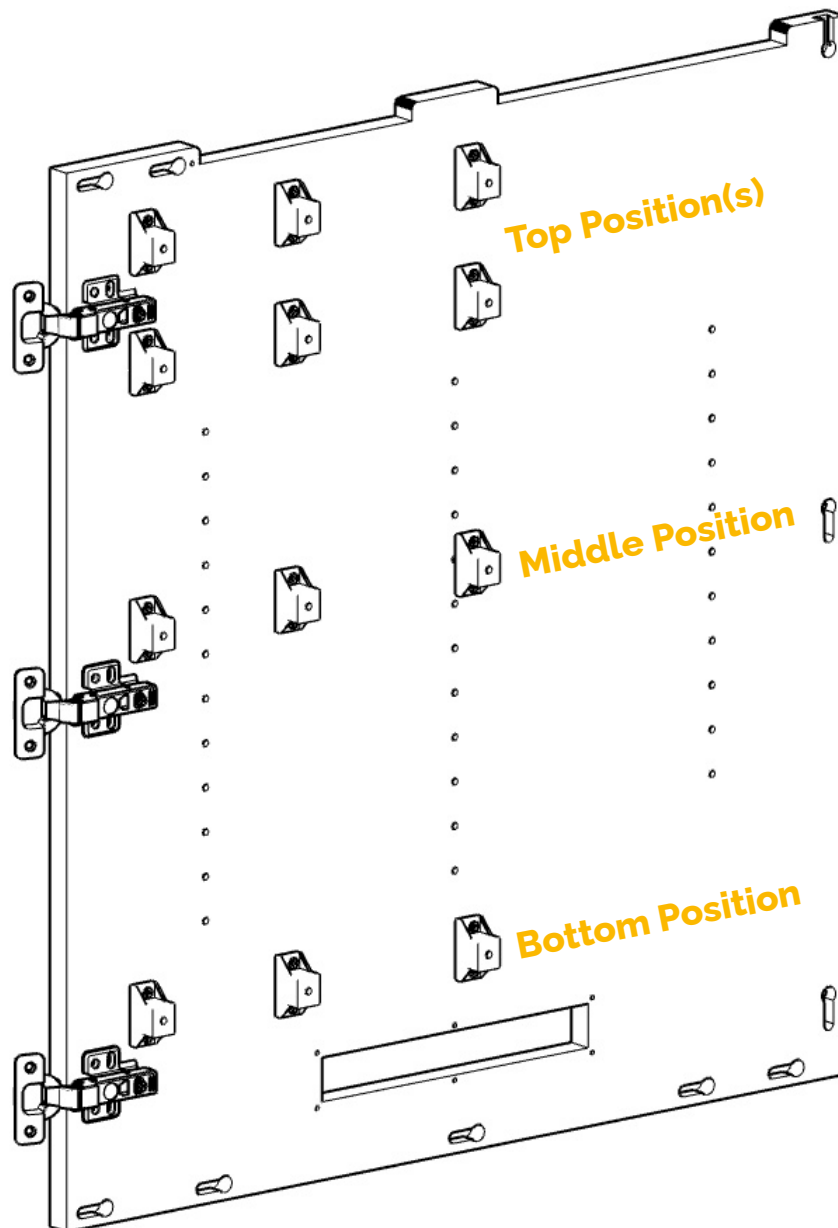

Qty: 6

5MM Euro Screw

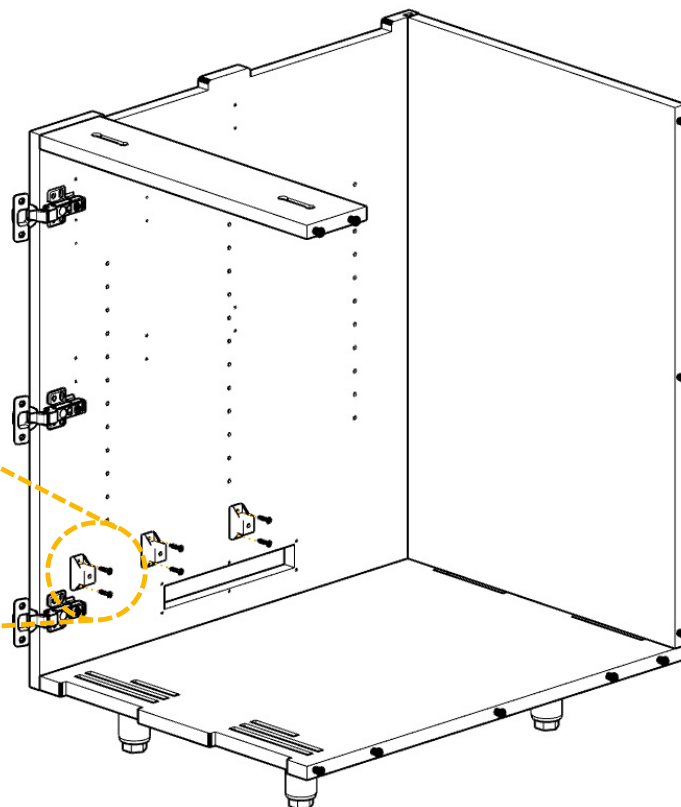

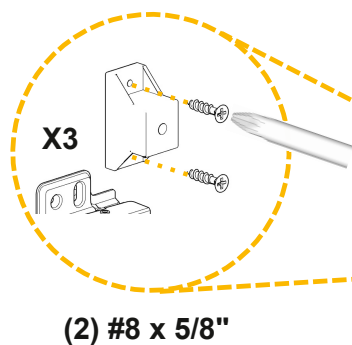

Qty: 6

Mounting Locations

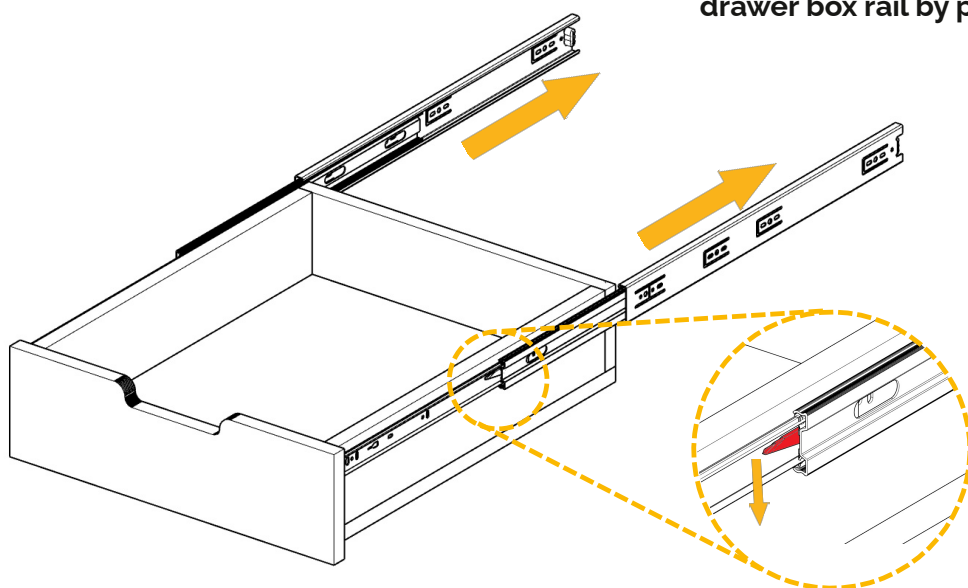

There are a total of (4) possible mounting positions for a maximum of (3) Rollout drawers. Only 1 of the 2 top mounting positions can be used.

Step 1: Locate the predrilled holes on the left Side Panel and select the desired mounting position from the four options. Attach (3) Drawer Glide Spacers using (2) #8 x 5/8" screws per spacer. Repeat on the right Side Panel.

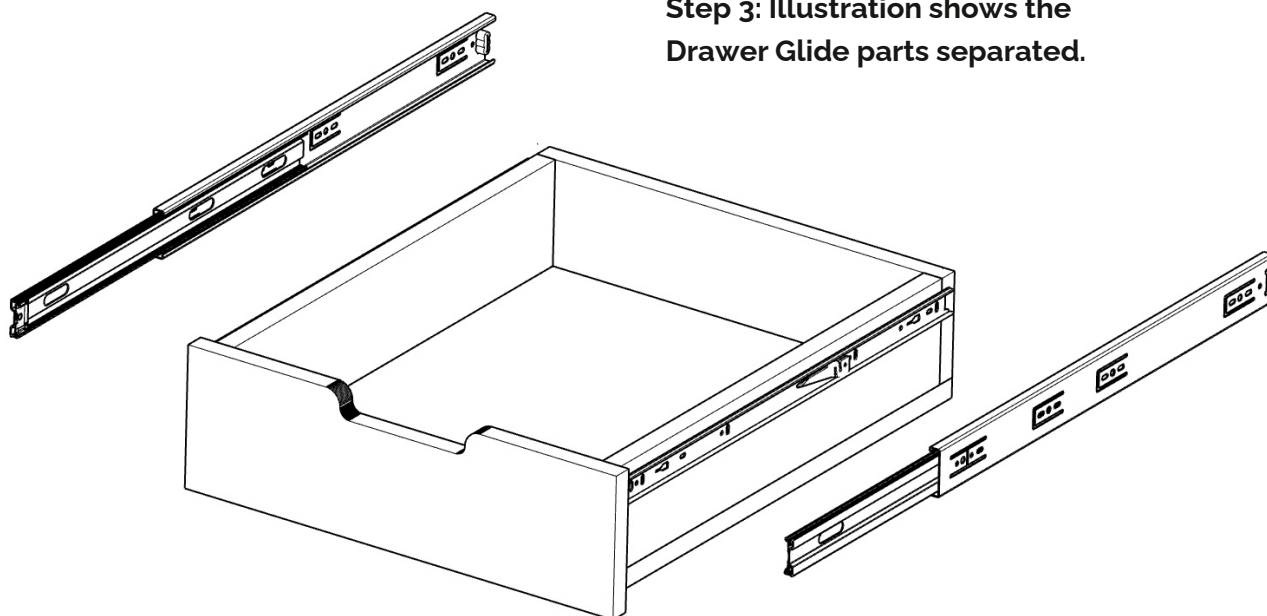

Cabinet Door and Right Side panel have been removed for illustration clarity.

Step 2: Separate the cabinet rail from the drawer box rail by pushing the release clip.

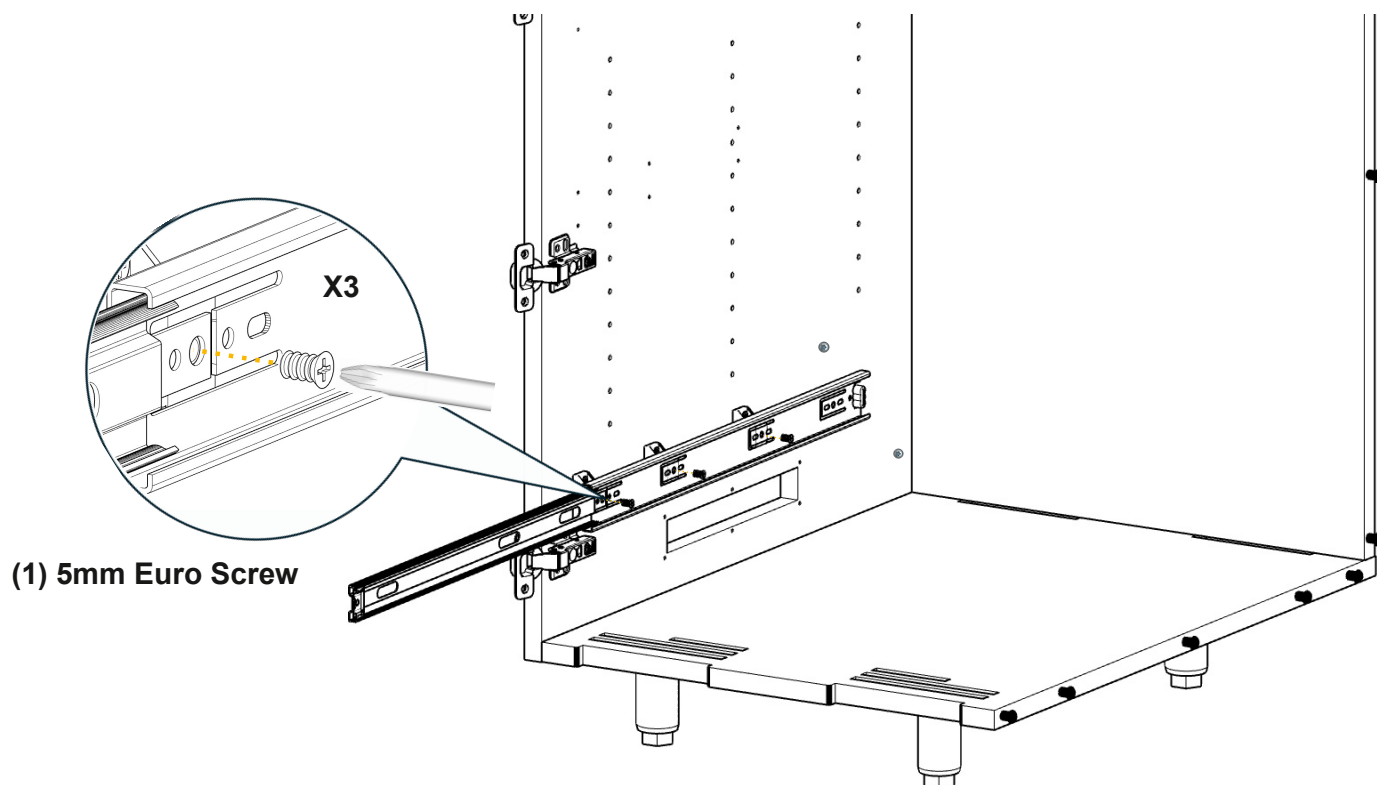

Step 3: Illustration shows the Drawer Glide parts separated.

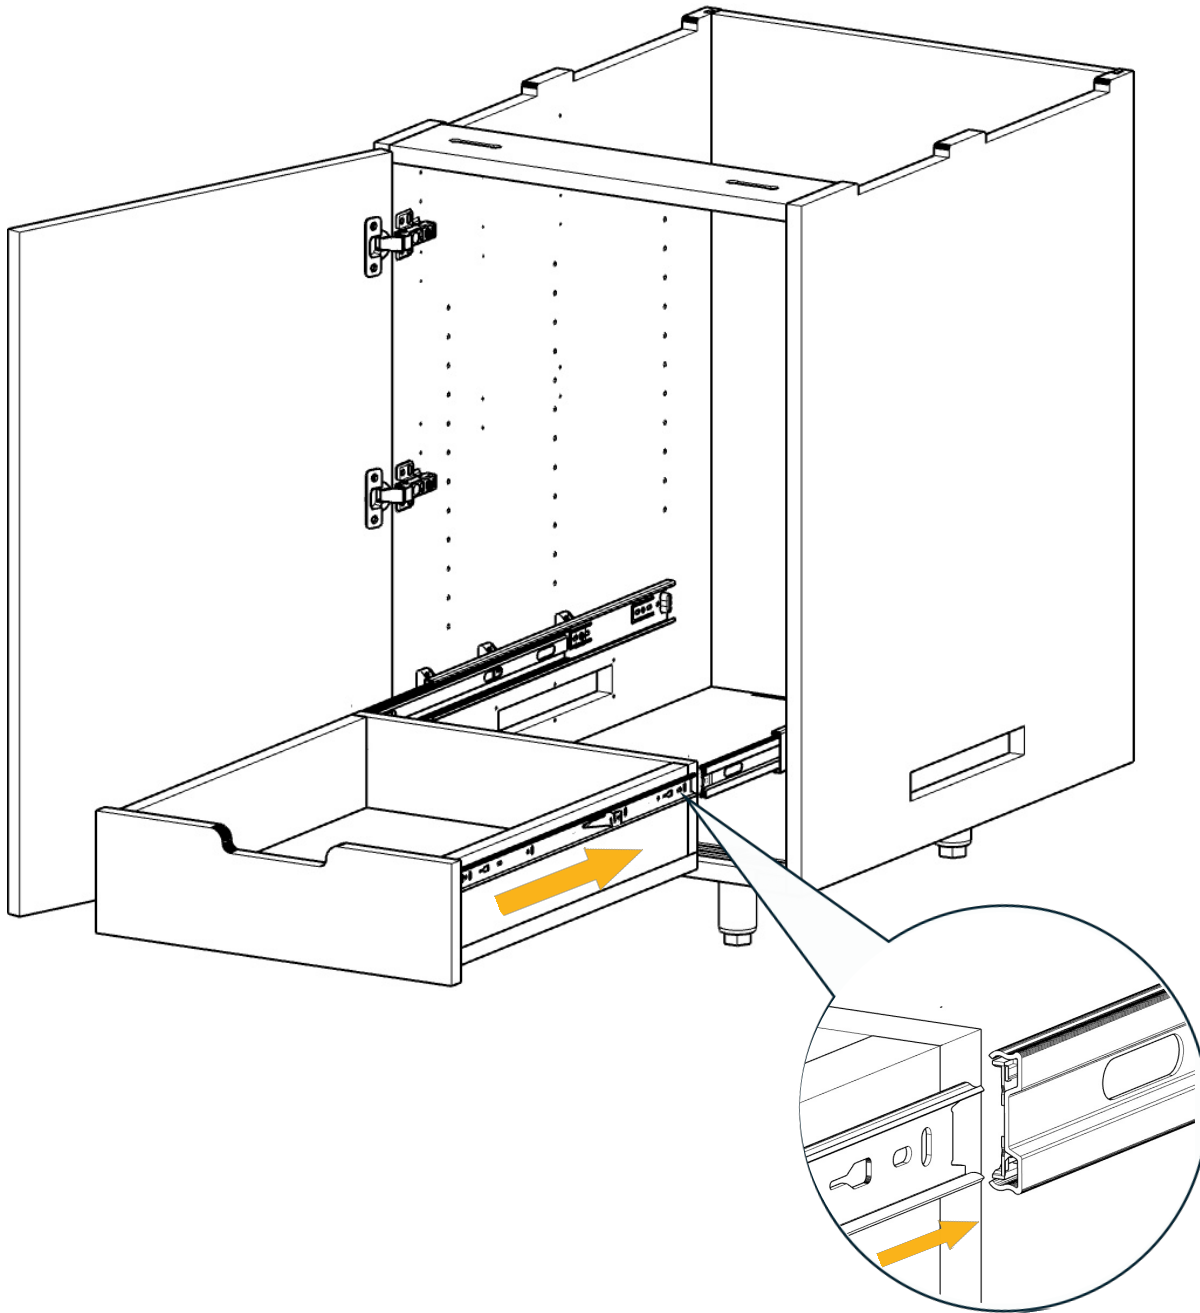

Cabinet Door and Side panel have been removed for illustration clarity

Step 4: Fully extend the Cabinet Box Rail and attach it to the Drawer Glide Spacers on the left Side Panel using (3) 5 mm Euro screws, as shown. Repeat on the Right Side Panel.

Step 5: Align the Drawer Rails with the Cabinet Rails, then slide the Roll-out Tray accessory into place.

Completed assemblies are shown below with various roll-out drawer configurations. Drawer quantities and mounting positions vary by cabinet.
